Bihani is a newly designed and developed website that offers a huge collection of different genres of Telugu movies and web series, all available online for you to download. Bihani contains 3 different sections - latest movies, featured movies and past movies. You can access the link of the movie you desire to download from these three categories. Downloaders will find Bihani as a straightforward website; it is easy to navigate and it contains all the latest releases. In the past, the best way to get Telugu movies was from Banganga. Although it used to be a popular and well-known site, it now offers some trouble in the form of more pirated videos and the site is no longer updated. This does not mean that Banganga is not working; it just means that it is offering a limited selection of movies. You can still download movies from Banganga, but you will need to do your own searching if you want to download movies in large quantities. In recent times, Indian Movies has become the most popular website to get Telugu movies. Its link is very easy to locate, and you will be presented with a vast selection of free movies to download. Indian Movies has an active community where there is usually a movie that many users have started downloading, so you will find it easy to locate your desired film. Indian Movies sometimes updates its site frequently, so you might want to bookmark its link. Desi Download is another good source for downloading a large number of Telugu movie downloads. Although this is a very new site, it is just like any other torrent site. In fact, you can even visit desidownload.com and then go directly to the site you want to download. However, there are plenty of movies on the Desi Download site, and many are currently being downloaded.
